Small Business

Bunker Family Store, LLC is an owner-operated small business manufacturer and supplier serving federal, state, and commercial buyers. We produce custom and low-volume parts in-house through additive manufacturing, and source the industrial goods and consumables our customers need to keep contracts moving — two capabilities under one point of contact.

CORE COMPETENCIES

Additive Manufacturing & Custom Parts

- Obsolete & legacy part replacement (DMSMS support)
- Prototypes, first articles, fit-check models
- Jigs, fixtures, gauges, and shop aids
- Enclosures, housings, brackets, and mounts
- Low-volume & bridge production, no minimum order
- Reverse engineering from drawings, models, TDPs, or samples

Industrial Supply & Distribution

- Hand tools, power tools, and accessories
- Fasteners, hardware, fittings, and connectors
- MRO, facility, and janitorial consumables
- Shop supplies, storage, and material handling
- Safety and general-purpose PPE
- Bulk and wholesale quantities on recurring buys

DIFFERENTIATORS

Manufacturer and supplier in one vendor

One purchase order covers a fabricated replacement part and the consumables that go with it — no second vendor, no second set of paperwork.

Built for micro-purchase and simplified acquisition

No minimum order quantity and no order too small to quote. Structured for the buys large distributors decline and small buyers still need filled.

Owner-operated responsiveness

You reach the owner directly. Written line-item quotes referencing your solicitation number typically go out in one to two business days.

Award-ready registration

Active SAM.gov registration, assigned CAGE code, and completed reps and certs including DFARS provisions. No onboarding gap between award and performance.

Candid scope assessment

If a requirement is outside what we can deliver, we say so during the quote stage rather than after award.

PAST PERFORMANCE

Newly registered for federal contracting; filling orders commercially since 2022.

2022

Operating continuously since

\$1.3M+

Cumulative commercial sales, 2022–2025

Thousands

Orders picked, packed, and shipped

- **Sourcing & fulfillment** — high-volume online retail of tools and household goods, sourced from wholesalers and fulfilled direct to customer.
- **Manufacturing** — additive production of custom parts from drawings and 3D models, with material selection and inspection before shipment.
